

UNRWLD 3D Model Terms of Use

English reference translation / v1.1

This is a brief overview of the permitted uses under the UNRWLD Terms of Use.

The Korean version is the authoritative text of these terms. The Japanese and English versions are reference translations. If interpretations differ, the Korean version takes precedence.

01 Use of the model

Code	Use	Permission
A	Individual use	Permitted for both commercial and non-commercial purposes.
B	Corporate use	Please contact the rights holder individually.

02 Uploading to online services

Code	Use	Permission
C	Uploading to platforms	Permitted.
D	Uploading to online game platforms	Permitted.
E	Granting third parties permission to use it within an online service	Not permitted.

D means uploading the model as an avatar to an existing online platform, such as VRChat, Resonite, or cluster. Incorporating this data into software or a game you developed falls under R and requires separate, individual permission from the rights holder.

Special provisions and license information

09 / X Special provisions

1. By viewing the product page or purchasing the product, you are deemed to have agreed to these Terms of Use.
2. The rights holder (UNRWLD) is not responsible for problems that arise while using this model.
3. Redistribution and sale of the model data are prohibited.
4. If you outsource modifications, both the client and the contractor must have purchased the model data. This is permitted only when both purchases can be confirmed.
5. Please limit corrections and modifications to the scope of the purchaser's own use.
6. The copyright in all data within this model belongs to its creator, UNRWLD, whether or not the data has been corrected or modified.
7. The permissions granted by these terms apply only to clothing data and other data for which UNRWLD owns the copyright. Please separately check each avatar creator's terms of use for the corresponding avatar itself and data derived from it.
8. Because this is a downloadable product, exchanges and refunds are not available.
